

Join our ReSAMPLING™ PROGRAM

HOW IT WORKS

- Stackable crates
- Regular pick-ups
- Access to our sample library
- Cancel anytime

BENEFITS

1. Keep good samples out of landfills.

Your garbage might be another designer's treasure. We catalog each sample in our library for future use/reference with other firms.

2. No more sample room "cleanouts"

By registering with our ReSampling™ Program, you eliminate the need to schedule time for "decluttering". Simply place unwanted/unused samples in one of our crates and... voila! ...no more clutter.

3. Savings

Our fees are inexpensive and spread out over time. This creates a reduction in your waste removal costs and keeps your dumpsters open for what they *should* be used for: garbage.
